Septic System Alteration Waiver, Block: 16.01 Lot: 4, 220 Rummel Road, Milford, NJ. Kurt Hoffman is requesting a Waiver to correct a malfunctioning system with no expansion. The design is in full conformance with 7:9A, "Standards for Individual Subsurface Sewage Disposal Systems", except for the waiver requested. The proposed disposal bed will be only 61 feet from the existing well which does not meet the minimum set back requirement of 100 feet. The distance can be reduced to 50 feet if there is 50 feet of casing in the well. The engineer has provided documentation that an Ultra Violet treatment device has already been installed on the well for added protection. A water test for coliform shall be done to ensure the device is working.

After discussion, Christopher Balogh made a motion to grant the waiver for Block 16.01 Lot: 4 for the distance of the proposed disposal bed being only 61 feet from the existing well. A passing coliform test from a NJ certified lab must be provided to the County Health Department once the UV light is installed. Donna Lizanich seconded the motion. A roll call vote was taken. Pearl Hammerstone, aye; Audrey Balogh, aye; Christopher Balogh, aye; Tony Szumski, aye; Donna Lizanich, aye; Lisa Mickey, aye and Karen Young, aye; It was a unanimous aye vote to grant this waiver.
